

Code #	Description	Size
872-7-7800	Flat File	10"
873-7-7800	Half Round File	10"

Diamond-cut pattern allows for a smooth finish while it breaks up the chips in smaller particles, reducing build up.

Available in select sizes only

Diamond-Kut™ Self-Cleaning Files

Partsmaster Diamond-Kut™ Files feature a diamond-cut pattern that forms a multiple chip breaking edge. This improves control over finishing by allowing the more coarse teeth to remove metal faster while the diamond cut pattern leaves a secondary, smoother finish. The Diamond-Kut™ pattern also decreases the build up of metal chips in the teeth by breaking the cut pieces into smaller particles. The Black-Ox coating keeps the teeth and patterns clean and free from rust to reduce friction in the gullets for longer file life and consistent results.

SPECIFICATIONS

Material	AISI 1095 high carbon steel
Pattern Length	9"
Hardness	65-67 Rc

Mill Bastard - 873-6-0020

Flat Bastard - 873-6-0030

Flat Diamond Kut - 873-6-0040

3-piece Iron Hold™
999-1-2000

Available in select sizes only

Iron Hold™ Flat Handle Files

Iron Hold™ Flat Handle Files combine all of the characteristics of the Partsmaster Iron Claw™ Files with a built-in, rubber-coated handle. The handle is contoured for a comfortable fit, and the rubber coating prevents slippage during use. The handles are a bright orange so the tools can be spotted quickly.

SPECIFICATIONS

Material	Chromium alloy steel; carburized teeth; black-ox coating
Hardness	65 Rc

Code #	Description	Length
873-6-0020	Mill Bastard	10"
