

Cryo-Vision™ Trimming Tool

- **Unique Design** - Allows a clear view of the work piece for precise operator control
- **Versatile** - Trims aluminum, copper, brass, rubber, PVC, plastic, composites, fiberglass, urethanes and wood
- **Long-Lasting** - Cryophase™ thermal cycling extends the life of the six carbide teeth in abrasive and gummy materials
- **Fast** - Make quick work of normally tedious trimming and shaping jobs
- **Excellent Finish** - Near-perfect, burr-free finish with one wheel

Note : Not for use on steel or hard metals
