

Customized Tap & Die Assortments, Large Size

No tap & die set should ever be a one-size-fit-all approach - the choices belong to the users. The oversized felt-lined hardwood case is perfect for regular shop use. Throw the thick durable plastic mobile box in the back of your truck. It has a precision-cut dense foam insert to keep everything in place. Choose among a broad selection of tap sizes and styles, including our unique Pilotdrive and Cryotaps that are Cryophase treated to maximize life and durability or try our HSS taps. Our Cryo Hex Dies are perfect for regular thread cutting high and low alloy steel, and the CTS Hex Dies (carbon tool steel) are perfect for thread chasing and thread cutting low-alloy steel. Follow the 3-step process and customize your own set.

1. Select the customizable storage box, with or without Tap & Die Tools

Beautifully crafted felt-lined maple tap & die box houses: 4ea 8pc tap sets, #6- 1/2" (3-12mm); 22 dies, 1"; tap & die handles, & thread gages.

Code #	Description
750-7-0812	12" X 21", without tools
999-6-2828	12" X 21", with tools*

Mobile, rugged, compact and efficient - it holds: 4ea 8pc tap sets, #6-1/2" (3-12mm); 22 dies, 1"; tap & die handles, & thread gages. Custom-cut dense foam keeps the contents secure.

Code #	Description
750-8-0812	12" X 14", without tools
999-6-2829	12" X 14", with tools*
