

Cobalt Bi-Metal Hole Saws

High cobalt tool-steel cutting edge is electron beam welded to a thicker, tougher steel wall and backing cap. As a result, these hole saws stand up to abuse and punishment, yet are lighter and easier to use than competitive cutters. Made in USA.

- Positive rake teeth improves chip clearance for cutting softer materials
- Reinforced tooth flank strengthens teeth for cutting hard materials
- Variable pitch teeth reduces vibration and heat
- Expanded gullets deliver faster cuts and longer life
- 1-1/2" depth of cut
- Wood, sheet rock, nail-embedded wood, plastic, machinable metal

Code #	Description
818-1-0033	Arbor: 1/4" hex shank X 1/2"-20, fits 9/16" to 1-3/16" hole saws
818-1-0034	Arbor: 3/8" hex shank X 1/2"-20, fits 9/16" to 1-3/16" hole saws
818-1-0044	Arbor: 7/16" hex shank X 1/2"-20, fits 9/16" to 1-3/16" hole saws
818-1-0055	Arbor: 7/16" hex shank X 5/8"-11 w/locking pins, fits 1-1/4" to 6" hole saws
818-3-7001	Arbor Extension: 12" long X 7/16" hex shank socket connection
818-1-0060	Arbor Adapter: 1/2"-20FM X 5/8"-11M, fits 1-1/4" to 1-1/2" hole saws
818-1-0070	Hole Enlarger: 1/4" stem, 9/16" to 1-3/16" pilot X 1-1/4" to 3" max hole
808-9-1301	Pilot Bit, Cryobit: 3-1/4" OAL, fits arbors 818-1-0033 & 818-1-0034
808-9-1300	Pilot Bit, Cryobit: 4-1/4" OAL, fits arbors 818-1-0044 & 818-1-0055
804-1-1753	Pilot Bit, Masonry: 4" OAL, for Carb-Cut™, fits 818-1-0044 & 818-1-0055
