

Cryotool® Jabsaw The 4-in-1 Frameless Hacksaw

- Spring-loaded Saw – One-handed action with no wobble
- Hacksaw – Uses 10" and 12" hacksaw blades
- Jigsaw – Cuts contoured lines and can cut straight lines using a sturdy guide
- Keyhole Saw – Tight notches and radii attainable

The Cryoflex Jabsaw's innovative design combined with the durability of the cryogenically-treated Cryoflex blade results in a tool that allows quick and accurate cutting, on both hard and soft materials, in the most difficult-to-reach places.

The Cryoflex Jabsaw features a unique pistol grip shape and is designed without an upper frame so that you can saw into, around and out of tight restricted spaces that are impossible to access using a regular hacksaw.

Used in plumbing, HVAC, vehicle maintenance, electrical (not insulated), plant and utility maintenance, and general repair.

Available in select sizes only

Code #	Description
803-2-0016	Jabsaw w/ 15-piece Cryoflex Hacksaw Blade Assortment (5 ea: 18, 24, 32 tpi)
800-4-0004	Spring-loaded Jabsaw w/ 32 tpi Cryoflex Blade

Power Hacksaw Blades

Power Hacksaw Blades are made with the same tough bi-metal construction our hacksaw blades. The molybdenum/cobalt teeth and spring steel back form a tough, yet flexible blade. They come in a variety of lengths to fit most standard power hacksaws.

Code #	Length	Width	Teeth Per Inch
810-1-0108	14"	1"	10
810-1-0208	14"	1-1/4"	10
810-2-0108	14"	1"	14
810-1-0210	18"	1-1/4"	10
810-3-0310	18"	1-1/2"	6
