

Aero-Cut™ Drill Bits

Drill Holes in Highly Abrasive Materials

- **Long-Lasting** – Carbide tip ensures long life
- **Versatile** –Excellent for drilling composites, fiber reinforced plastic (FRP), titanium, cast iron, brass, bronze and aluminum
- **Durable** – Cryophase™ treatment improves wear resistance and increases flexibility for use in a hand drill
- **Fast** – At least two times faster speed than standard high speed steel with a better hole finish

SPECIFICATIONS

Material.....	Solid Carbide up to 1/8"; Carbide Tip with HSS Shank 9/64" and up.
Hardness (tip)	79 Rc
Temperature resistance.....	up to 1400°F
Surface	Bright Finish
Cryophase.....	Patented thermal cycling cryogenic treatment
Tip Design.....	135° Split Point

Assortments	
802-5-0015	15 Piece Set: 1/16" to 1/2" in 32nds in 29 pc. Index
802-5-0028	29 Piece Set: 1/16" to 1/2" in Bit Buddy Index
802-5-0029	29 Piece Set: 1/16" to 1/2" in 64ths in 29 pc. Index

Cutting Fluids	
600-2-5035	E-Z Cut™ Dual Action Cutting Fluid, 13oz. aerosol
700-1-0055	E-Z Cut™ Dual Action Cutting Fluid, 2x2-1/2 gallon
700-5-0012	Cryotool™ Plus Tapping Fluid, pint can with spout top
