

## 2-in-1 Butane Hands-Free Torch

- Both an open flame torch and a flameless heat tool with a heat shrink attachment
- Can be used hand-held or can utilize its wide, stable base for "hands-free" use
- Has a built-in self-igniting system with a safety lock that ensures the switch is not turned on accidentally when not in use
- Refillable fuel tank holds enough butane for two hours of continuous use
- Use this great torch to heat or ignite materials, as a pinpoint torch, with heat shrink tubing, to solder or desolder, and more

### SPECIFICATIONS

Dimensions . . . . .	6.1" H X 3" W X 1.3" D
Fuel . . . . .	Butane
Run Time . . . . .	2 hours
Flame Temperature . . . . .	2500°F (1371 °C)
Hot Air Temperature . . . . .	932°F (500°C)
Net Weight . . . . .	5 oz.

Code #	Description
800-0-0176	2-in-1 Butane Hands Free Torch with hot air tip and shrink attachment
800-0-0177	Butane Hands Free Torch
800-0-0178	Hot Air Constrictor Nozzle for Torch
800-0-0179	Shrinkable Tubing Nozzle for Torch (requires 800-0-0178 for use)
800-0-0181	Butane fuel canister, 15/16 oz.
800-0-0182	Butane fuel canister, 3-3/4 oz.

Note: Torch is shipped empty and must be filled with butane for use.

## Quik-Fire® Plus Torch

- Lights without using flints, matches or strikers
- Uses propane or mapp gas and has an adjustable flame that will light more than 30,000 times
- Use it for brazing, melting, soldering and more

### SPECIFICATIONS

Flame Temperature . . .	3400°F / 1850°C
Fuel . . . . .	propane or mapp

Code #	Description
800-0-0080	Quik-Fire torch
800-0-0083	Replacement torch head

## Alkaline Batteries

Industrial maintenance alkaline batteries

Code #	Description
210-7-0010	9-volt battery
210-7-0012	D (1.5v) battery
210-7-0014	C (1.5v) battery
210-7-0016	AA (1.5 v) battery
210-7-0018	AAA (1.5 v) battery
210-7-0020	6-volt battery
210-9-0100	AAAA (1.5v) battery
210-9-0104	Lithium batteries
