

Partsmaster™ Reciprocating Saw Blades

Super M42 Tough Teeth for Long Life

- Cuts steel, stainless steel, alloy steels and non-ferrous metals like aluminum, brass and bronze, as well as nail embedded wood
- Excellent for abrasive materials like composites, fiberglass, FRP and cast iron
- Cuts fast to reduce operator fatigue
- Universal shank fits most saws
- Bi-metal cobalt/moly teeth for long life
- Available in 9 styles and 2 assortments

Applications:

Nail embedded wood
HVAC equipment
Pipe and angle iron
Conduit
Plumbing penetrations
Instrument panels
Truck frames and beds
Buses
Carbon fiber composites
Fiberglass boats
General demolition

Industries:

Food service
Building construction
Chemical processing
Water treatment
Utilities
Aircraft maintenance
Transportation
Fabrication
Schools
City services
Marinas

082-2-0010

Note: Use with high quality cutting lubricant like E-Z Cut™ Stick Lubricant.

Code #	Description	Size	Uses
082-2-0001	Bi-metal Recip Saw Blade	4" X 3/4" X .035 18TPI	Heavy ga. metal to 1/8"
082-2-0002	Bi-metal Recip Saw Blade	6" X 3/4" X .035 6TPI	Nail embedded wood
082-2-0003	Bi-metal Recip Saw Blade	6" X 3/4" X .035 14TPI	Heavy ga. metal to 1/8" & above
082-2-0004	Bi-metal Recip Saw Blade	6" X 3/4" X .035 14-18TPI	Fast cutting heavy ga. metal 3/32" & above
082-2-0005	Bi-metal Recip Saw Blade	6" X 3/4" X .035 24TPI	Thin metal & trim
082-2-0006	Bi-metal Recip Saw Blade	8" X 3/4" X .035 18TPI	Metal up to 1/8", conduit, tubing
082-2-0007	Bi-metal Recip Saw Blade	8" X 3/4" X .050 10-14TPI	Metal to 1/8" and above
082-2-0008	Bi-metal Recip Saw Blade	12" X 3/4" X .050 6TPI	Wood & composition materials w/nails
082-2-0009	Bi-metal Recip Saw Blade	12" X 3/4" X .035 14TPI	Pipe, angle, metal 1/8" and above

Assortments
