

**Solution Series
HAND TOOLS**

VISION PRO ULTRA-VIOLET LED POCKET FLOOD PEN

- The perfect leak detection tool for any closed under pressure systems
 - State of the art performance, 400nm in a compact pen design (water, hydraulic, motor oil and transmission fluid leak dyes are detectable @ 370-400nm)
 - Price vs. performance, no need for expensive leak detection tools
 - Produces a floodlight wide angled beam
 - Complete cool ultra-violet LED beam with no hot or dark spots
 - O-ring sealed, water resistant to incidental water contact
 - Super strong anti-rust anodized aluminum body
 - Orange peel reflector produces a more uniform LED beam
 - 2-feature tail cap switch: ON (HIGH) / OFF and MOMENTARY for situations when just a flash of UV light is needed
- * Warning: Wear 100% UVA blocking safety glasses when using this light. Direct Exposure to ultra-violet LED light can damage eyes. DO NOT look directly into the ultra-violet LED light or expose others to the ultra-violet LED light. Keep out of reach of children.

Anti-freeze dye

Applications

- Bacteria and animal urine detection in food plants, kitchens, hospitals and health care facilities, schools, hotels and apartments
- Dye leak detection for air conditioning, automotive and hydraulic equipment
- UV curing of inks, coatings and adhesives
- Hairline crack detection - weld dye penetrant testing and other crack detection without using UV dye
- Verification and authentication of watermarks, currency, gems, paintings, hand stamps and identification
- Document and lab analysis
- Crime scene investigations and hunting retrieval (detects blood in dark environments)

Refrigerant dye

SPECIFICATIONS

LED Ultra-Violet / 400nm
 Batteries Uses 3ea AAAA (not included)

Flourescent markers

Code #	Description
210-6-1032	Vision Pro AAAA Ultra-Violet LED Pocket Flood Pen
210-9-0100	AAAA Batteries, 6/pkg
800-6-3055	Amber lens safety glasses, Nemesis
800-6-3045	Amber lens safety glasses, Lt. Wt.
210-6-1033	LED Inspection Kit Includes: Vision Pro White; Vision Pro UV; 6ea AAAA; Amber lens safety glasses

Amber lens safety glasses, Nemesis
