

WELDER'S PLIERS

- A "must have" for MIG and flux core arc welding operations
- Designed to be used with gas-shielded welding guns - grips and cuts wire; cleans, removes and installs nozzles, tips and bushings; removes spatter inside and outside the cup; tightens and loosens bolts
- Can also be used as needle nose pliers, side cutters and hammer
- Comfortable, insulated grips
- Spring loaded for easy opening and closing

Code #	Description
710-0-0000	Welder's Pliers

UTILITY SNIPS

Industrial Cutting Tool

- Designed for general purpose cutting of anything that can be cut with scissors as well as many things scissors would never cut
- Tool steel cutting edges are heat-treated to 53Rc for toughness and edge retention
- Great for cutting hose, soft wire, sheet metal and strapping

Code #	Description	Overall Length
800-0-1828	Utility Snips	7-1/2"

AVIATION SNIPS

- Heat-treated cutting blades are double hardened for longer life and cut up to 15 gauge sheet metal or 18 gauge stainless steel
- 58 - 60 Rc Blade Hardness
- Unique offset blade design keeps handle and hands off work when cutting for extra safety
- Comfortable plastic handle with slip guard provides a better grip

Code #	Cutting Direction	Cutting Edge	Color
800-0-1841	Left Snip	1-3/4"	Red
800-0-1842	Right Snip	1-3/4"	Green
800-0-1843	Straight Snip	1-3/4"	Yellow
