

## Welder's Stick Electrode Jobber Tray

An assortment of the most popular welding electrode alloys that you have trusted and relied on for years. Our variety pack offers the best alloys to tackle many of your everyday jobs - now available in 2 pound tubes. Need to weld right now? The Jobber Tray is great for having around the shop for easy access and conveniently fits in any mobile welding or service truck. Take advantage of these top performing welding rods whenever you need them.

990-1-6002

### Metalworking Electrodes

- Designed for removing broken bolts, extractors and taps
- Non-conductive flux protects threads from damage
- Tensile strength is greater than that of most grades of bolts, even stainless steel bolts

X-Tractalloy	
004-9-5002	3/32" – 2 LB Jobber Pack
004-9-6002	5/64" – 2 LB Jobber Pack

### Multi-Steel Welding Electrodes

- Designed for dissimilar welding jobs of ferrous metals
- Weld deposits exhibit both high strength and high toughness
- Great for all position welding with easy slag removal

Blue Lightning	
100-9-4002	1/8" – 2 LB Jobber Pack

### Steel Welding Electrodes

- Easy to use – practically welds by itself
- Moisture proof flux – eliminates rod damage or loss
- Saves time and money – welds through grease, rust & paint

Dura-Weld Gold	
106-9-4002	1/8" – 2 LB Jobber Pack
106-9-5002	3/32" – 2 LB Jobber Pack

- Superior cleaning action consumes contaminants
- Operates at lower amperage, controlling heat input damage
- Low-hydrogen toughness for extreme maintenance applications

Black Glass Lo-Hi	
104-9-4002	1/8" – 2 LB Jobber Pack
