

CryoBoost™ Drill Bits

- Long lasting specialty bits that spread the job of cutting across multiple levels, staying sharp up to 4X longer compared to conventional and other specialty tip designs
- Starts hole easier, The multi-stepped tip acts like a step drill, allowing for laser like holes through sheet metal and prevents walking on curved surfaces
- Three-flatted shanks to reduce slippage common with keyless chucks
- Eliminates the need to drill starter pilot holes before making larger hole sizes
- Contains 1/16" through 1/2" by 64ths
